GEOS LANGUAGE ACADEMY

GEOS Language Academy Courses are designed to help students improve their language ability, with a focus on conversation and communication. Language skills are developed through a comprehensive, multi-skilled learning system, taught by qualified native instructors.

GEOS believes that the fastest and most effective path to fluency is through conversation. Thus, students are encouraged to use their new language skills as quickly and as frequently as possible. Early, continued success in speaking and understanding helps build the confidence needed in real-life conversational situations. Building confidence is the primary goal of all GEOS language courses.

GEOS language instructors are caring and patient professionals...qualities we feel are essential in helping to build confidence and maintain motivation.
